Taking Flight

The Nadine Ramsey Story

Raquel Ramsey and Tricia Aurand

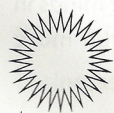

Foreword by Maj. Gen. Jeannie M. Leavitt, USAF

"*Taking Flight*, Nadine Ramsey's story, is more than the tale of her days as a WASP pilot ferrying high-priority army aircraft across the skies of wartime America. It is the heartfelt account of her family and its collective grit, patriotism, and raw courage. We learn of Nadine's painful recovery from an early plane crash, the healing that allowed her to fly as a WASP, and finally her battle against the recurring pain in later life. A good read and a ton of great research."

Sarah Byrn Rickman, author of *The Originals: The Women's Auxiliary Ferrying Squadron of World War II* and *WASP of the Ferry Command: Women Pilots, Uncommon Deeds*

"My journey as an Air Force fighter pilot would not have been possible if it were not for the incredible women who went before me, beginning with the WASPs. . . . I hope readers will draw from Nadine's example the strength to be bold, dream big, and believe in themselves. Readers should be inspired to believe nothing is out of reach. Aim High!"
